

Section Map: Riverside Landing to Highway 70

This section map provides information for the 46.5 mile section of the St. Croix River between Riverside Landing and Highway 70 Landing. For specific information on water levels, area outfitters, or to speak with a park ranger, contact the Marshland Education Center, 15975 State Hwy 70, Pine City, MN, 55063, (320) 629-2148. Information is also available at the St. Croix Visitor Center, (715) 483-3284, ext. 638. Or lookup information on the Riverway website: www.nps.gov/sacn. Additional handouts describing canoeing and camping are available at Riverway centers, or download handouts from the Riverway website.

For Your Safety

Water Levels

The water level between Riverside and Highway 70 Landings provides good canoeing all summer except in times of extreme drought.

Hazards

Overhanging trees that have fallen into the water, and bridge piers, can overturn a canoe and trap canoers underwater. Be alert. Your water-filled canoe can pin you against obstacles.

Life Jackets

Wearable personal floatation devices (PFDs) are required onboard vessels for each person.

Children under 13 years of age must wear a properly fitting PFD when your vessel is moving.

Vessels include motor boats, canoes, and kayaks.

Jet Skis

Jet ski use is prohibited on this stretch of river.

Parking

Lock your vehicle and take valuables with you. Obey parking signs and do not block landings.

Ticks

Ticks are found along the Riverway. Learn the symptoms for Lyme disease. Bring repellent for ticks and mosquitoes.

Drinking Water

Tap drinking water is provided at some landings. See the map on reverse side for locations. River water must be treated. Purify water by heating to a rolling boil for at least 1 minute. Portable water filters are less reliable. For best tasting water, bring your own.

Poison Ivy

The three, shiny, large-toothed leaves of poison ivy are common at wood's edge.

Avoid touching this plant.

Protect Your Riverway

Trash

Carry out all trash. Bring a trash bag. Do not dispose of trash in toilets or fire rings.

Glass Containers

Glass beverage containers are prohibited at the Riverway.

Restrooms

Primitive toilets are available at campsites and landings. If toilets are not available, bury human waste 6 inches deep, and at least 100 feet away from the river and campsites.

Erosion

Help prevent riverbank erosion. Sand banks are fragile and often are turtle nesting sites. Please keep off.

Mussels

Mussels, also known as freshwater clams, and their empty shells are protected. Some species are endangered. Please do not disturb them.

Camping

Camping is permitted in designated sites only. There is a one night limit at each site. Please read the National Park Service handout titled "Camping" for more information.

Fires

Use a stove for cooking. You may collect dead and down wood for campfires, except from islands. Build them only in metal fire rings.
